"I design for the person on the other side of the algorithm."

Profile Summary

Product Designer with 3+ years across fintech, B2B SaaS, and EdTech, currently focused on AI agent platforms — simplifying complex workflows and making intelligent systems feel intuitive and trustworthy.

I bring a background in illustration and visual storytelling alongside a genuine curiosity for emerging AI tools, which shapes both how I solve problems and how I communicate them.

Projects

PixelRoast - UI Feedback Community (Ongoing)

- Building a platform for designers to receive **AI-powered UI feedback** combined with **community critique**. Exploring feedback loops where high-quality human input continuously improves AI evaluation systems.

Inbot - AI Email Agent

- Built an **AI-powered email assistant** using Copilot to automate responses with human-in-the-loop approval. Designed summarization for long threads and edge-case handling, improving clarity and reducing cognitive load in high-volume communication workflows.

Baseline - Design System Plugin

- Designed a **Figma plugin** to streamline design system usage - improving access to components, tokens, and patterns while reducing repetitive work and increasing consistency.

Education & Certification

Savitribai Phule Pune University
Bachelor of Electronics Engineering

CGPA: 8.40 2018 - 2022

Certification

Google UX Design Professional Certificate
Web Design (Arena Animations)
FOF Mumbai Design Hackathon

Experience

Skysecure Technologies Pvt. Ltd. Jan 2026 - Present

Product Designer

Domain: **AI - Powered Saas**

- Currently **leading UX research** for Agent Factory - an **AI agent marketplace** to discover, consume, and deploy agents as services, with a roadmap targeting 25,000–30,000 agents. Reimagined the onboarding process for members, clients, and trading entities - simplifying complex, multi-step flows into faster, more intuitive experiences.
- Worked on Realize, Skysecure's AI execution platform - restructuring the IA into four clear pathways (Assess, Deploy, Manage, Agent Factory) and cut key task journeys from 5–7 min to **~3 min.**
- Contributing to the design system - working across brand tokens, component library, and interaction patterns to bring consistency across products.
- Explored UX concepts for two client projects - a proof-of-concept for enterprise license management and an early-stage IoT water quality monitoring app currently in client review.

Spectent Services Pvt. Ltd. July 2025 - Dec 2025

UI/UX Designer

Domain: **B2B SaaS I EdTech (B2C EMS Platform)**

- Built a unified dashboard connecting Inspection, Asset, Task, and Document Management modules to provide better visibility and control.
- Redesigned the platform using Material Design System 3, creating **54 mobile and 20 web screens** to enhance Asset Management app (Asset Arc) workflows.
- Improved the Inspection module flow for Level 1 users - from barcode scanning to completing checklists - to make the process **28% faster** and reduce redundant actions.
- Designed the landing page and **brand logo** to align the visual identity with the Asset Arc's new B2C direction.
- Conducted UX research to understand how students, teachers, admins, and parents in Tier 2 and Tier 3 cities across India manage daily processes and identify pain points.
- Working on EMS (Educational Management System) **ideation**, translating insights into wireframes and early concepts to simplify enrollment, attendance, and communication flows.

Tata Consultancy Services Nov 2022 - June 2025

UI Developer → UX Designer

Domain: **Financial Technology**

- Transitioned into UX by proactively identifying **usability gaps** in CCIL's membership system through self-initiated research.
- Reimagined the **onboarding process** for members, clients, and trading entities - simplifying complex, multi-step steps into faster and more intuitive experiences.
- Designed and supported end-to-end workflows, ensuring that backend logic and frontend interactions aligned with the improved user journey.

Design Toolkit & AI Workflow

Core Design -
Interaction Design · Information Architecture · Visual Design · Prototyping · Responsive UI · Illustration · Visual Storytelling

Research & Strategy -
UX Research · Usability Testing · Heuristic Evaluation · Competitive Analysis · JTBD· AI Agent UX · Human-in-the-loop Design · Trust & Explainability

Tools -
Figma · FigJam · Miro · Claude Code · ChatGPT · UXpilot · Midjourney · Framer · Variant · Relume · Figma Make
